Md Mehedi Hasan Naeem

mehedinaeem00@gmail.com | +8801943806813 | Bangladesh

EDUCATION

Jatiya Kabi Kazi Nazrul Islam University Mymensingh, Bangladesh
B.Sc. in Computer Science and Engineering Feb. 2023 – Dec. 2026 (Expected)
CGPA: 3.44/4.00 **Relevant Coursework:** Machine Learning, Artificial Intelligence, Natural Language Processing, Data Structures and Algorithms, Computer Networks, Computer Graphics, Digital Signal Processing, Computer Architecture.

RESEARCH EXPERIENCE

Research Assistant, Department of Computer Science and Engineering, JKKNIU Dec. 2025 – Present
Conduct faculty-supervised research under Prof. Dr. Md. Sujan Ali in machine learning and intelligent systems. Responsibilities include literature review, dataset preparation, experimental design, model development, evaluation, result analysis, field-data preparation, and academic writing. Contributed to three conference papers under his supervision and to an ongoing journal manuscript.

RESEARCH PUBLICATIONS & PROJECTS

Research Output: Contributed to seven IEEE conference papers, six as first author. One is published in IEEE Xplore, two have been presented with proceedings publication in progress, and four are accepted for IEEE conference presentation. A journal manuscript is under review at *Machine Vision and Applications*.

Conference Papers: *Solar-Powered IoT-Based Smart Farming Model (SPISFM)*; *LUMO: A Privacy-Preserving Offline Voice Assistant*; *A Machine Learning Framework for Predicting Restaurant Food Waste*; *TheatreStageAI: Multi-View Retrieval-Augmented Generation for Bengali Theatre Production Planning*; *An Efficient Approach to Beetle Damage Detection of Banana Using Deep Learning*; *A Hybrid Attendance Monitoring Framework Using Fingerprint Authentication and FaceNet-SVM Recognition*; and *TCN+LightGBM for Interpretable Short-Term Electricity Demand Forecasting in Bangladesh*.

SmartPresence: Developed a vision-based attendance and identity-monitoring framework using FaceNet-SVM recognition, YOLO11n person detection, and ByteTrack tracking with a 40-participant experimental setup.
LUMO: Developed a privacy-preserving offline multilingual AI assistant using local speech processing and AI inference for resource-constrained environments.
Smart Campus, Smart Transport: Developed a Django-based smart transport system integrating ESP32, GSM, and GPS for real-time vehicle tracking, route management, schedules, and seat booking.

LEADERSHIP & COMMUNITY ENGAGEMENT

President, JKKNIU Research Society (2026 – Present): Provide strategic and organizational leadership for an 18-member executive committee, overseeing research programs, workshops, collaborations, external communication, event planning, and student engagement. Leading a structured research training and workshop program with approximately 200 on-site participants and coordinating the planning of an international research conference, including partnerships, sponsorship, speakers, logistics, and institutional outreach.

Vice President, JKKNIU Research Society (2025 – 2026): Contributed primarily to IT and digital development, supported research events and organizational operations, and helped develop and maintain digital systems for communication, event management, and member engagement.

Founder, Amader Online School (2021 – Present): Founded a free educational initiative and created more than 150 learning resources. The associated YouTube platform has approximately 1,110 subscribers and more than 104,000 views.

President, Dewpara Brothers Sporting Club (Aug. 2025 – Present): Lead a community sports organization focused on youth engagement through education, health awareness, and sports. Coordinate activities that encourage healthy lifestyles, positive participation, and awareness against drug abuse.

Class Representative, Department of CSE, JKKNIU (2.5 Years): Represented a class of 46 students and coordinated academic communication, schedules, student concerns, and departmental matters with faculty.

TEACHING & PROFESSIONAL ENGAGEMENT

Programming Trainer, Mid-Day Programming: Teach programming fundamentals, coding techniques, and problem-solving skills to junior learners through practical sessions.

Private Tutor: Provide academic tutoring to school and college students. Income from tutoring contributes to my personal educational and living expenses, helping me support my studies independently.

Domain Leader, Aspire: Support AI and technology-focused community engagement and coordinate mentor sessions within Aspire's international network.

SPORTS & TEAM LEADERSHIP

Champion and Team Captain, Dewpara Football League – Season 2, 2024: Captained the championship-winning team, leading team coordination and match preparation throughout the competition.
Runner-Up, Short-Pitch Mini Cricket, CSE Fest 2025, JKKNIU: Member of the runner-up team in the departmental short-pitch mini-cricket competition.

SELECTED AWARDS & HONORS

Digital Transformation and Leadership Award, 2025, JKKNIU Research Society | **2nd Runner-Up, Idea Competition – Research Week 2026**, Research and Extension Center, JKKNIU | **Top 10 among 200+ Teams, Innovatex Hackathon**, BUBT IT Club | **1st Runner-Up, TechMind Hackathon 2024**, Department of CSE, JKKNIU.

TECHNICAL SKILLS

Programming: Python, C, C++, Java, JavaScript, R, SQL | **AI/ML:** PyTorch, TensorFlow, Scikit-learn, OpenCV, YOLO, FaceNet, ByteTrack, RAG | **Web/Systems:** Django, React, REST APIs, PostgreSQL, Docker, Git, ESP32, GSM/GPS
